PROFESSIONAL SUMMARY

Full Stack Developer with 2+ years of professional experience building web applications, SaaS platforms, and AI-powered applications using React.js, Next.js, Node.js, Python/FastAPI, PostgreSQL, and MongoDB. Experienced in RESTful APIs, authentication and role-based workflows, payment integrations, real-time features, and RAG-based AI applications from development through deployment.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript, Redux, React Query, HTML5, CSS3, Tailwind CSS, ShadCN UI
Backend: Node.js, Express.js, Python, FastAPI, PHP, RESTful APIs, JWT, Authentication & Authorization, NextAuth, WebSocket
Databases: PostgreSQL, MongoDB, MySQL, Redis
AI & LLM: Generative AI, Agentic AI, RAG, LLM Integration, Prompt Engineering, Vector Search, ChromaDB, OpenAI API, Ollama
DevOps & Tools: Docker, Git, GitHub Actions, CI/CD, Postman, Hostinger VPS

PROFESSIONAL EXPERIENCE

Full Stack Developer | Shimmer Utility Private Limited Mar 2024 - Feb 2026 | Patna, Bihar

- Engineered and deployed multiple responsive full-stack applications using the MERN stack and Next.js.
- Architected scalable RESTful APIs with Node.js and Express.js for frontend services and external integrations.
- Optimized frontend responsiveness and state management workflows using React.js and Redux.
- Designed custom administrative dashboards and content management systems to streamline operations.
- Integrated secure payment gateways, authentication systems, and referral modules across client platforms.

PROJECTS

Service Management SaaS - Urban Service Operations Platform Live: servizato.in

- Built a multi-role service marketplace SaaS for service booking, technician assignment, job tracking, invoicing, OTP verification, proof submission, and job completion.
- Integrated Razorpay Checkout and secure webhooks for payment processing and automated payment verification; implemented Socket.IO messaging/notifications and operations/financial dashboards.

Technologies: Next.js, React.js, TypeScript, Tailwind CSS, ShadCN UI, Node.js, MongoDB, Mongoose, NextAuth, Razorpay, Socket.IO, REST APIs

School Umpire - School Management ERP Live: schoolumpire.com

- Developed ERP modules for attendance, fee tracking, and school administration; built secure admin functionality and automated operational workflows.

Technologies: React.js, JavaScript, PHP, MySQL, REST APIs, CSS

Saathi AI Friend - RAG-based Conversational AI Assistant Code: github.com/Sidrajput1/ai_friend_engine

- Built an AI friend chatbot with persona-based prompting, short-term conversation memory, and long-term memory retrieval using RAG and ChromaDB.
- Developed a FastAPI backend and Next.js frontend with session management and workflow-based response generation for history, memory, and general chat.
- Integrated Ollama local models and Gemini API for flexible LLM support and cost-effective development and testing.

Technologies: Python, FastAPI, Next.js, Ollama, Gemini API, ChromaDB, RAG, Embeddings, Pydantic

DiscountsLo - Business Listing & Payment Platform Live: discountslo.com

- Developed a merchant discovery and referral platform featuring interactive dashboards and transactional APIs.

Technologies: React.js, Node.js, MongoDB, Express.js

LeetCode Clone - Coding Practice Platform Code: github.com/Sidrajput1/Leetcode_clone_nextjs

- Constructed a full-stack algorithm evaluation interface with custom authentication and submission pipelines.

Technologies: Next.js, PostgreSQL, Prisma ORM, ShadCN UI

EDUCATION

Master of Computer Applications (MCA) - Lovely Professional University 2024 - 2026
Bachelor of Computer Applications (BCA) - Maulana Mazharul Haque University 2019 - 2023

CERTIFICATION

FastAPI with GenAI & Agentic AI - Certificate of Completion, 2026
