Professional Summary

Frontend Developer with 2+ years of professional experience building responsive web applications and SaaS platforms using React.js, Next.js, TypeScript, Redux, React Query, and Tailwind CSS. Experienced in building polished interfaces, integrating APIs, and shipping production-ready features with strong focus on performance and user experience.

Technical Skills

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript, Redux, React Query, Context API, HTML5, CSS3, Tailwind CSS, ShadCN UI

Backend/Integration: Node.js, Express.js, REST APIs, JWT, NextAuth, FastAPI, Python, Razorpay

Databases: MongoDB, MySQL, PostgreSQL, Prisma ORM

Tools: Git, GitHub, Postman, Vercel, Docker (basic), CI/CD

Concepts: Responsive Design, State Management, Form Validation, API Integration, RBAC, UI Optimization

Professional Experience

Full Stack Developer | Shimmer Utility Private Limited

Mar 2024 – Feb 2026

Patna, Bihar

- Built responsive web interfaces and dashboards using React.js, Next.js, Redux, and modern JavaScript.
- Integrated frontend applications with RESTful APIs and improved data handling through structured state management.
- Developed admin dashboards, CMS pages, and reusable UI components for client operations.
- Improved usability across devices with responsive design, component reuse, and performance-focused UI updates.

Projects

Service Management SaaS – Urban Service Operations Platform

Live: service-management-qkpm.vercel.app

- Built a service management platform with booking flow, technician dashboard, customer portal, and admin UI.
- Implemented responsive interfaces for lead management, booking tracking, and real-time notifications.

Tech Stack: Next.js, React.js, Tailwind CSS, MongoDB, NextAuth

School Umpire – School Management ERP

Live: schoolumpire.com

- Built school ERP screens for attendance, fee tracking, and admin workflows.
- Created responsive admin pages and structured UI flows for day-to-day operations.

Tech Stack: React.js, PHP, MySQL

Rahul AI Friend – RAG-based Conversational AI Assistant

Code: github.com/Sidrajput1/ai_friend_engine

- Built a chat UI with message bubbles, auto-scroll, loading states, and session persistence.
- Developed a Next.js frontend for memory, history, and general chat workflows.
- Integrated FastAPI, Ollama, and Gemini API for a context-aware AI chat experience.

Tech Stack: Next.js, FastAPI, Python, ChromaDB, Ollama, Gemini API

Education

Master of Computer Applications (MCA) – Lovely Professional University (2024 – 2026)

Bachelor of Computer Applications (BCA) – Maulana Mazharul Haque University, Patna (2019 – 2022)

Additional Information

- Passionate about building clean, responsive, and user-focused interfaces.
- Continuously learning TypeScript, performance optimization, and modern frontend patterns.
