

Sidharth Shekhar

Full Stack Developer

Patna, Bihar, India | +91 6201274925 | shekharsidharth7@gmail.com

GitHub: github.com/Sidrajput1 | LinkedIn: [Sidharth-Shekhar](#)

Professional Summary

Full Stack Developer with 2+ years of experience building scalable web applications and SaaS platforms using MERN stack, Next.js, PostgreSQL, and modern frontend technologies. Experienced in developing end-to-end solutions including RESTful APIs, authentication systems, payment integrations, admin dashboards, and real-time notifications.

Technical Skills

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript, Redux, React Query, Context API, HTML5, CSS3, Tailwind CSS, ShadCN UI

Backend: Node.js, Express.js, PHP, RESTful APIs, Authentication & Authorization, JWT, NextAuth

Databases: MongoDB, MySQL, PostgreSQL, Prisma ORM, Redis

Tools & DevOps: Git, GitHub, Docker, CI/CD (GitHub Actions), Postman, Vercel and Hostinger VPS

Concepts: RBAC, SaaS Architecture, Payment Gateway Integration, System Design Basics

Professional Experience

Full Stack Developer | Shimmer Utility Private Limited

Mar 2024 – Feb 2026 | Patna, Bihar

- Developed and deployed multiple full-stack web applications using MERN stack and Next.js
- Built scalable RESTful APIs using Node.js and Express.js
- Improved frontend responsiveness and user experience using React.js and Redux
- Designed custom admin dashboards and CMS systems
- Integrated payment gateways, authentication systems, and referral modules

Projects

Service Management SaaS — Urban Service Operations Platform

Live: <https://service-management-qkpm.vercel.app/>

- Built full-stack SaaS for booking workflow, technician assignment, billing, and customer operations
- Integrated NextAuth authentication and Razorpay payment gateway
- Developed admin dashboards, customer portal, and real-time notifications

Tech Stack: Next.js, MongoDB, NextAuth, Razorpay, Tailwind CSS

School Umpire — School Management ERP

Live: <https://schoolumpire.com/>

- Developed ERP modules for attendance management, fee tracking, and school administration workflows
- Built secure admin functionalities and optimized data handling for school operations
- Improved workflow automation and reduced manual administrative tasks

Tech Stack: React.js, PHP, MySQL

Vyapar Helpline — Business Support Platform

Live: <https://vyaparhelpline.com/>

- Built role-based authentication and authorization system
- Integrated payment wallet and transaction management

Tech Stack: React.js, Node.js, React Query, Zod, ShadCN UI

DiscountsLo — Business Listing & Payment Platform

Live: <https://discountslo.com/>

- Built business listing platform with referral system and payment integration

Tech Stack: React.js, Node.js, MongoDB

LeetCode Clone — Coding Practice Platform

- Built coding practice platform with authentication and submission workflow
- Designed PostgreSQL schema using Prisma ORM

Tech Stack: Next.js, PostgreSQL, Prisma ORM, ShadCN UI

Education

Master of Computer Applications (MCA) — Lovely Professional University (2024–2026, Online, Final Semester)

Bachelor of Computer Applications (BCA) — Maulana Mazharul Haque University, Patna (2019 – 2023)

Additional Information

- Passionate about building scalable SaaS products and modern full-stack applications using MERN and Next.js ecosystem
- Strong understanding of REST API development, authentication systems, payment gateway integration, and responsive UI development
- Actively learning advanced backend technologies including Redis, system design, and scalable application architecture
- Comfortable working in agile environments, collaborating with teams, and delivering production-ready applications
- Strong problem-solving mindset with continuous focus on improving application performance and user experience
